Mountain Weather Forecast

Mourne Mountains

Forecast valid from 00:00 on Saturday 11 Jun 2022 until 23:59 on Sunday 12 Jun 2022

Forecast Issued on Friday 10 Jun 2022 at 17:44

Confidence: An unsettled period of weather with unseasonably strong winds over the early part of the weekend. Some uncertainty about the amount of showers likely to affect the Mournes and also the movement of frontal rain early next week.

Headline for Saturday 11 Jun 2022: Mainly bright and dry but very windy on the hills.

Forecast for Saturday 11 Jun 2022

Weather: Mainly cloudy overnight but a few clear spells at times. During the morning there will be some bright or sunny spells developing but cloud lingering for most of the day and occasionally building in the afternoon to a shower. A windy day with summit gales and winds especially strong around lunchtime. Showers perhaps more frequent through the middle of the day.

Chance of cloud-free hill tops above 700m: 70% patchy or scattered low cloud at times around showers however the main cloud base will be above the summits.

Low cloud and visibility: Very good general visibility with good views likely from height but visibility dipping to moderate in any showers and cloud may thicken at 6-700m in heavier showers later in the afternoon.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

An unseasonably windy day, with summit gales and very gusty on the hill tops, despite reasonable temperature it will feel cold in the stronger winds.

Forecast for Sunday 12 Jun 2022

Weather: A mainly dry and bright day with strong winds easing gradually, a few afternoon showers developing but these mostly light and short lived.

Maximum wind: Southwesterly 20-25mph with gusts 30-40mph

Chance of cloud-free hill tops above 700m: 90%, some patchy low cloud at times but generally clear summits.

Low cloud and visibility: Good visibility is expected but it may dip in any showers.

Temperature: **Valleys:** Plus 10 rising to 15 Celsius.
At 700m: Plus 6 rising to 9 Celsius.
Freezing level: Above all summits.
